Stunning Palazzo set in the heart of one of the oldest towns in the Maltese Archipelago, minutes away from the old Capital City of Mdina. Constructed for the Noble Maltese family Theuma Castiletti during the reign of the Knights of the Order of St. John in the mid seventeenth century, this Palazzo exhibits examples of various historical periods of the Maltese islands. Recent archaeological excavations have revealed that the building was constructed over part of a Roman village. An impressive series of interconnecting vaults lie below the stately rooms of the palazzo. The vaults boast continuous rows of arches that support the massive limestone slabs and are a typical example of outstanding historical Maltese architectural mastery. Yet another beautiful feature is the lavish courtyard measuring 144 sq/mtrs and having class 6 permits. A new class 6 structure has also been built and elevated over the roman ruins to allow modern indoor dining and to further compliment courtyard catering. This is most definitely the opportunity a discerning high-end catering establishment would be seeking, allowing multi-concept catering /retail potential including restaurants, cafes, wine-bar and shops.
