The property forms part of a small block of only 6 units and is located just a few metres from the main square, ensuring immediate access to all amenities, shops, restaurants, and public transport. Situated on the first floor, the apartment offers a total area of approximately 156 sqm (125 sqm internal), designed with a well-balanced and highly functional layout. Upon entering, one is welcomed into a spacious kitchen area that flows into an L-shaped living and dining space, creating a comfortable and modern open living environment ideal for both daily living and entertaining. The property comprises three double bedrooms, each offering ample space and natural light. In addition, there is a versatile study/games room, which can easily be converted into a walk-in wardrobe or additional storage area depending on the buyer's needs. The apartment also includes a main bathroom and a guest bathroom, enhancing practicality for families or shared living arrangements. Further complementing the internal layout are multiple outdoor spaces, including an internal courtyard, a backyard, and a front balcony, providing valuable natural light, ventilation, and private outdoor areas. The property also benefits from use of roof space, adding further utility and potential. A key feature of this property is the included 1+ car street-level garage, located just a corner away from the apartment (not interconnected), offering secure parking and additional storage flexibility—an extremely valuable asset in this central location.
