Garage (Residential) - For Sale - Zejtun

ZEJTUN - STREET LEVEL GARAGE this spacious street-level 5-car garage represents a rare and highly practical freehold opportunity in the residential area of Zejtun, offering exceptional functionality and long-term value. The property provides generous internal space, comfortably accommodating up to five vehicles, making it ideal not only for private parking but also for storage, hobby use, or light operational purposes depending on the owner's needs. One of the key advantages of this property is its street-level access, which ensures effortless entry and exit without the limitations of ramps or basement levels. This makes it particularly convenient for daily use, vehicle manoeuvring, and loading or unloading of stored items. The layout has been designed to maximise usability, allowing for organised parking or flexible internal configuration. The garage is fully serviced with essential utilities, including water and electricity, significantly increasing its practicality for a variety of uses beyond standard vehicle storage. Additionally, the inclusion of a private toilet adds further convenience, making the space suitable for longer stays, workshop use, or small-scale operational activities. Being offered as freehold, the property provides full ownership rights, making it a secure and attractive long-term investment. Freehold garages of this size and specification are increasingly rare, particularly in established residential areas such as Zejtun, where space is highly valued. Overall, this property combines space, accessibility, and utility in one versatile package, making it an excellent opportunity for homeowners, collectors, or investors seeking a secure and functional asset with strong long-term potential.
