Valletta - An old Palazzo with remarkable architectural qualities, located in one of the best areas in the capital city of Valletta. The Palazzo comprises lots of old heritage features and is strategically located in very close proximity to the main streets of commercial activity. The lower part of the building is a mid 16th century Baroque building, while the upper part is post-war a addition. The state of the art offices are spread on 4 floors , including meeting rooms and boardrooms. Most of the top floors of the property, located at the corner of the two named streets, command spectacular long distance views of the Sliema, Marsamxett Harbour and the south-east coastline of the island.
